- » When taking a Strike Test, this Force's commander may roll two d10 and choose the result.
- » If this Force is the attacker in an amphibious or sea scenario, it may fly false colors to deceive the opposing force. Roll one d10 at the start of each turn. On a 7+ the ruse is discovered and has no effect, so no further rolls are made. Otherwise, no unit in this Force may be attacked by any enemy units this turn unless a unit in this Force attacks first or moves within 12" of an enemy unit.

This unit loads small shot with regular musket balls to cause greater damage. When this unit rolls any natural 10s for a Ranged attack using muskets against an enemy unit no more than 12" away, an additional d10 may be rolled for each natural 10 in an attempt to score additional hits. Natural 10s rolled with the bonus dice do not trigger any additional dice.

Vanguard

If this unit is activated with a SPADE, it may take a free Reload action with Artillery that it is assigned to.

This unit can roll an additional d10 for each natural 10 rolled during a Fight test to attempt to score additional hits. Natural 10s rolled with bonus dice do not trigger any additional rolls.

If this unit is activated with a ♦ or ♥, it may take a free Reload action with Artillery that it is assigned to.

If this unit is activated with a SPADE, and it is not engaged in a Melee Combat, it may take a free Reload action with Small Arms.

When charging, this unit receives a -1 bonus to the Fight Test for the free Fight action.

If the unit that includes this commander causes an opposing unit to be removed from the game (either as casualties or by routing), all units in this commanders force may remove a point of Fatigue.

A unit with this Special Rule can pass a ship Advanced Maneuver and Sail Setting Tests on a 5+.

If this unit ends an activation with any amount of Fatigue, and it did not Push or gain any Fatigue during the activation, it may take a free Rally Test with a single d10.

This unit may take a free Move action on the first turn of a game, at the beginning of the Start Phase before cards are drawn. If multiple forces have this rule, the attacker moves their units with Vanguard first.
